| 1. A computer-implemented method for renting movies to customers, the method comprising: | <p>1. BLOCKBUSTER Online® (the accused instrumentality) employs a computer-implemented method for renting movies to customers.</p> <p>See www.blockbuster.com</p> <p>1a. BLOCKBUSTER Online® provides electronic digital information that causes one or more attributes of movies to be displayed to the customer.</p> <p>How does the search feature work?</p> <p>Question How does the search feature work?</p> <p>Answer</p> <p>The Search function can help you find movies, games and other content from throughout BLOCKBUSTER Online. Know the name of the movie you desire? Type it in the Search bar at the top of the page. The search results will be sorted by tabs for movies, actors and directors and games associated with the words you entered. The most relevant results will be listed at the top, and the tab (movies, actors and directors, or games) containing the greatest number of relevant results will be opened. The number of results for each tab will appear in parenthesis next to the tab name. Use the Advanced Search to narrow your search results.</p> |
| providing electronic digital information that causes one or more attributes of movies to be displayed; | <p>What is the function of the Actors & Directors tab?</p> <p>Question What is the function of the Actors & Directors tab?</p> <p>Answer</p> <p>The Actors & Directors tab lists all people in our database who matched your search term. The names are listed in order of relevance to the search term, with actor or director listed in parenthesis next to the name.</p> <p>This tab is helpful if you are trying to find a movie and you know who was in it, but can't think of the title. Enter the actor's name in the Search bar. In most cases, this will bring up the Actors & Directors tab with a list of actors matching the name you entered. Click on the actor's name and look through his or her filmography to find the movie you want.</p> <p>“Frequently Asked Questions,” at http://blockbuster.custhelp.com/cgi-bin/blockbuster.cgi/php/enduser/std_alp.php?</p> <p>1b.
